Applications

Monitoring method for recognizing endless loops and blocked processes in a ...
US Pat. 6269478 - Filed Jul 22, 1998 - Siemens Aktiengesellschaft
In general, for each deselection of a **process** an operating **system** scheduler (
program) determines the runtime thereof, 35 and compares this with a runtime ...

Communications network **state** and topology **monitor**
US Pat. 5049873 - Filed May 4, 1990 - Network Equipment Technologies, Inc.
5 The **monitor** node includes an underlying **data management system** based ... 55
The **monitor system** event **application** retrieves events from all the nodes in ...

System, apparatus, method and computer **program** product for processing ...
US Pat. 6633898 - Filed Jul 28, 1999 - Fujitsu Limited
However, herein it is assumed that **system** check by the initial setting module
itself by using a 15 **system call** is made so as to quickly check the operating

...

Switch controller for a telecommunications network
US Pat. 6480597 - Filed Jun 12, 1998 - MCI Communications Corporation
Thus, the **application program** represents a controller of the computer **system** (
and of the processor 304). Alternately, the **application program** is ...

Integrated proxy interface for web based **data management** reports
US Pat. 6377993 - Filed Sep 24, 1998 - MCI WorldCom, Inc.
Another client-server based **data management application**, referred to as ... of
real time **call** detail data and network traffic analysis/**monitor** information ...

State information managing method and communication **system**
US Pat. 6243830 - Filed May 6, 1998 - Yazaki Corporation
Still more, the **system** set forth in Patent **Application** BACKGROUND OF THE
INVENTION ... when the **data management** portion required for

Patents   Patents **1 - 10** on **"data management" policy system call monitor state process OR application**

Access control by a real-time stateful reference **monitor** with a
state ...
US Pat. 7290266 - Filed Feb 8, 2002 - Cisco Technology, Inc.
A stateful reference **monitor** may have its security **policy program**
updated ...
system defines computer platform for which **application** programs in
other ...

SS7 firewall **system**
US Pat. 6308276 - Filed Sep 7, 1999 - iCom Technologies
The in-line device 202 combines **call state** monitoring, line control, and
transaction **state** ... This **process** includes definition of each control **policy**
rule, ...

Method and apparatus for storage **system** metrics
management and archive
US Pat. 6886020 - Filed Aug 17, 2000 - EMC Corporation
The agent has an **Application Program** Inter- Symmetrix arrays across any
of
various ... Via commands from the command and control The **data**
management and
...

Decentralized, distributed internet **data management**
US Pat. 6671686 - Filed Nov 2, 2001
In the above example, there was only one transaction **monitor process**
involved.
... The other option is that all transaction managers in the **system** use the ...

Intelligent communications point platform
US Pat. 6668051 - Filed Mar 28, 2000 - Sevis Systems, Inc.
In sum, the ICP Platform 200 combines **call state** monitoring, ... **Process**
manages
the **process** configuration profile and the **application** rule repository. ...

Method and storage and manipulation of storage **system**
metrics
US Pat. 7082441 - Filed Aug 17, 2000 - EMC Corporation
The **data management** and archive method and apparatus according to the
invention
is ... The agent has an **Application Program** Interface (API) to the
microcode ...
